Pharmacy Fentanyl Patch 4 Patch Return Disposal Sheet

Guidelines for Returning Fentanyl Patches

The Fentanyl Patch Return System is a program to promote safe, effective, and responsible use of Fentanyl patches.

1. Store your fentanyl patches (new and used) in a safe and secure place in your home (Lock box). Keep them out of the reach of everyone, but especially of children and pets.
2. When you are ready to return your used patches, **you must follow these guidelines:**
 - Stick each used patch on this sheet in a numbered box. Place the patch flat, so that it is totally visible.
 - Tape the four corners of the patch, with a small amount of tape, so that the patch is totally visible to the pharmacy staff. You must return all of your patches in order to have your prescription refilled.
3. If the above guidelines are not followed, you will receive a maximum of one patch, and your physician will be notified that the process has not been followed and your physician decides the next steps of care.
4. **I agree to waive any right of action of against any person or institution who provide information in compliance to this authorization.**

By signing this form, I am acknowledging that I understand the above guidelines, and agree to follow them. I am aware that if any of the attached ***Fentanyl Patches*** are found to be **altered** or to be **counterfeit**, I could face **Criminal Charges**. I agree to **adhere to the terms & conditions set out in the Consent for Controlled Substance (Narcotic)**
